

POSITION DESCRIPTION - FIRST AID OFFICER / TEAM STRAPPER (JUNIOR)

As First Aid Officer and Team Strapper you will be responsible for the prevention, immediate treatment and management of injuries to players. Using First Aid and strapping techniques you will ensure that any injuries are treated and managed to minimise the potential for long-term damage. This role is all about teamwork, managing others, and making sure players have the right level of care on hand.

Qualifications & Experience:

- Current First Aid qualifications and experience with strapping
- Current Working with Children check
- Be well organised
- Enthusiastic and dedicated to all players and participants
- Empathetic

Duties:

- Ensure sure Tape, First Aid equipment and First Aid kits are appropriately stocked and available
- Ensure you understand the club's emergency procedures
- Attend refresher training when appropriate
- Keep records of player medical conditions and injuries
- Complete incident/injury reports as they occur, in line with Rugby Victoria/ Rugby Australia regulations
- Promote the welfare of all club members and participants based on Rugby Australia guidelines and club policy (e.g. management of concussion injuries)

What you will get out of it:

Unfortunately, injuries happen, so your role is vital in making sure players are treated quickly and efficiently. Thanks to you the right people will be on hand with the right equipment during matches and training. You will be making the best of some difficult situations but will earn the respect and gratitude of all players and club members. It's also a great way of staying involved in the game if you've already hung up your boots.
